ABSTRACT

A list of participating institutions at the Associated Schools Project in Education for International Co-Operation and Peace, December 31, 1985 is presented. A total of 1,970 institutions in 94 countries participated, including 47 nursery schools, 556 primary schools, 1,123 secondary schools, and 248 teacher training institutions. Addresses of schools and contact persons, including principals and coordinators, are listed for the participating institutions. United Nations Information Centers/Services and United Nations and Specialized Agencies addresses are also included. (RSL)

The Danish Unesco Schools Project is implemented in close cooperation with practicing teachers, rather than with a network of schools. The co-ordinators are in contact with approximately 600 teachers at 350 primary and lower secondary schools all over the country. By this method the Danish Unesco Schools Project is in direct contact with far more teachers, and consequently pupils as well, than if the contact was limited to a small number of schools. Through regular post and announcement of courses efforts are made to keep the teachers up to date with knowledge and information. If contact with Danish Unesco teachers is desired, please apply to one of the co-ordinators at the above address.

Au Danemark le Système des Ecoles Associées fonctionne en étroite coopération avec des enseignants en service, plutôt qu'avec un réseau d'écoles. Les coordonnateurs sont en contact avec environ 600 enseignants dans 350 écoles primaires et secondaires dans tout le pays. De cette façon le Système concerne directement beaucoup plus d'enseignants et par conséquent plus d'élèves que s'il était limité à un nombre restreint d'écoles. Par courrier régulier et par une information sur les cours on essaie de tenir les enseignants au courant des activités du Système. Si vous désirez vous mettre en rapport avec des enseignants danois participant au Système, veuillez vous adressez aux coordonnateurs.

En Dinamarca el Plan de Escuelas Asociadas trabaja en cooperación estrecha con los maestros, más que con una red de escuelas. Los coordinadores están en contacto con 600 maestros de 350 escuelas primarias, y secundarias de todo el país. De este modo, en Dinamarca, el Plan está en relación directa con mayor cantidad de maestros y por lo tanto de alumnos que si el contacto se estableciera con un número limitado de escuelas. Por intermedio del correo y de los anuncios de cursos, se trata de mantener a los maestros al tanto de las actividades del Plan. Si se desea ponerse en contacto con alguno de los maestros participantes en el Plan de Escuelas Asociadas, dirigirse a uno de los coordinadores.
